Lecturer Position – Bioengineering

The Bioengineering Department at the University of Pennsylvania seeks applicants for one full-time lecturer position. Responsibilities will be teaching duties in biomedical signals and systems analysis, medical devices, and engineering design instruction. In addition, the position includes some advising and administration in the department's undergraduate program. A description of the courses offered in the undergraduate program can be found through this link: http://www.seas.upenn.edu/be/undergrad/courses/.

The position will be on a 12-month basis with successive one-year reappointments possible and a limit of four consecutive appointments, based on an annual review and the department's needs. Qualifications: A Ph.D. in bioengineering, another relevant engineering or science discipline, commitment to undergraduate education and previous teaching experience preferred.

The application for this position can be found through this link: http://facultysearches.provost.upenn.edu/postings/1355

Consideration of applications will begin May 31, 2018.

The University of Pennsylvania is an Equal Opportunity Affirmative Action Employer. Minorities/females/individuals with disabilities/veterans are encouraged to apply.
